SCSS & CSS

Git, GitHub & GitLab

Node.js

GraphQL

PROFILE

I'm a driven and curious full stack developer who strives to expand my knowledge and uplift those around me through mentorship. I prioritize teamwork, collaboration and communication and have a track record of leading teams to increased output by focusing on scalable, maintainable systems and tools, while continuing to produce code myself.

EMPLOYMENT HISTORY

Software Developer, Uberflip

Toronto

Mar 2020 — Present

- Build, update and maintain the content experience platform using PHP, React and MySQL
- Write, run and optimize testing on the platform using sinon, nest.js, enzyme and Java
- Build and update new APIs and endpoints for both internal and external use
- Plan, build and deliver a new service allowing clients and internal developers more control and faster deployment of their platform

Front End Developer, Uberflip

Toronto

Jan 2019 — Mar 2020

- Customized content management platforms for 400+ clients using SCSS and JavaScript.
- Performed inter-team code reviews to maintain a high standard of code
- Developed a clear and maintainable workflow using JIRA and GitLab
- Built and updated tooling used to automate the development process

Web Developer, GroupBy Inc

Toronto

May 2018 — Jan 2020

- Built and customized user interface and back-end logic for online retailers
- Used React to build adaptable and reusable components for product pages
- Conducted code reviews for the front end team to ensure high quality code
- Performed unit testing on all components using Mocha and Chai

EDUCATION

Web Development Immersive, Juno

Jan 2018 — Mar 2018

Immersive bootcamp in front end web development with a focus on React, accessibility and best practices
